Investment Objective

To provide competitive returns consistent with the broad equity market while also providing a level of capital protection during market downturns. The Series is designed to offer a diversified portfolio of dividend-paying U.S. equity securities. Using a systematic process with a focus on mid- to large-capitalization U.S. companies, securities are selected based on factors such as free cash flow generation and earnings power, minimum dividend yield, dividend sustainability, and financial health.

May be Appropriate for Investors:

- Seeking a portfolio of high-quality, dividend-yielding securities
- Seeking exposure to companies with meaningful growth potential due to high free cash flow yields and earning power

Disciplined Value Series Class Z

A Word About Risk

All investments involve risks, including possible loss of principal. As with any stock fund, the value of your investment will fluctuate in response to stock market movements. Investing in the Series will also involve a number of other risks, including issuer-specific risk, foreign investment risk, and mid-cap risk. In addition, because the Advisor manages the Series using a disciplined screening process, the Series is subject to the additional risk that the investment approach may not be successful. Further, the Advisor does not intend to make frequent changes to the Series' portfolio in response to market movements.

Inception performance is based on the Disciplined Value Series Class I inception of 11/07/2008. For periods through 03/01/2019 (the inception date of the Class Z shares), performance for the Class Z shares is based on the historical performance of the Class I shares. Because the Class Z shares invest in the same portfolio of securities as the Class I shares, performance will be different only to the extent that the Class I shares have a higher expense ratio. Performance data quoted represents past performance and does not guarantee future results. Performance for periods greater than one year is annualized. The investment return and principal value of an investment will fluctuate, so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than that quoted; investors can obtain the most recent month-end performance at www.manning-napier.com or by calling (800) 466-3863.

The Russell 1000® Value Index is an unmanaged, market capitalization-weighted index consisting of those Russell 1000® Index companies with lower price-to-book ratios and lower forecasted growth values. The Index returns are based on a market capitalization-weighted average of relative price changes of the component stocks plus dividends whose reinvestments are compounded daily. The Index returns do not reflect any fees or expenses. Index returns provided by Bloomberg.
