Investment Objective

To provide high current income and long-term capital appreciation by investing principally in companies in the real estate industry.

Under normal circumstances, at least 80% of the Series' assets will be invested in securities of companies that are principally engaged in the real estate industry, including industries directly involved with, serving, and/or related to the real estate industry.

May be Appropriate for Investors:

- Seeking a long-term (15 years or more) investment and who are willing to accept the risk of investing in the real estate industry

- Seeking to add diversification by investing in real estate securities

A Word About Risk

All investments involve risks, including potential loss of principal. Funds whose investments are concentrated in a specific industry or sector may be subject to a higher degree of market risk than funds whose investments are diversified among a variety of sectors. The Real Estate Series is subject to risks associated with the direct ownership of real estate, including the potential for falling real estate prices and the possibility of being highly leveraged; an investment in the Series will be closely aligned with the performance of the real estate markets. Additionally, like all derivatives, investments in options can be highly volatile and involve risks in addition to the risks of the underlying instrument on which the derivative is based, such as counterparty, correlation and liquidity risk.

Inception performance is based on the Real Estate Series Class S inception of 11/10/2009. For periods through 08/01/2012 (the inception date of the Class I shares), performance for the Class I shares is based on the historical performance of the Class S shares. Because the Class I shares invest in the same portfolio of securities as the Class S shares, performance will be different only to the extent that the Class S shares have a higher expense ratio. Performance data quoted represents past performance and does not guarantee future results. Performance for periods greater than one year is annualized. The investment return and principal value of an investment will fluctuate, so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than that quoted; investors can obtain the most recent month-end performance at www.manning-napier.com or by calling (800) 466-3863.

Investments will change over time. The "Other" category contains securities such as ETFs and others that cannot be otherwise classified. Top Ten Investments list is unaudited and excludes cash. The MSCI U.S. Real Estate Investment Trust Index (MSCI US REIT NET TOTAL RETURN) is a free float-adjusted market capitalization index that is comprised of equity REITs as classified as Equity REITs Industry under the GICS® Real Estate sector. The MSCI U.S. REIT Index is a subset of the MSCI USA Investable Market Index (IMI) which captures large, mid, and small-cap securities. The Index returns do not reflect any fees or expenses. The Index is denominated in U.S. dollars. The Index returns are net of withholding taxes. They assume daily reinvestment of net dividends thus accounting for any applicable dividend taxation. Index returns provided by Bloomberg. Mid-month performance may not be available for the benchmark. If applicable, performance shown is from the first of the month following the corresponding Fund's inception date.
